The take-off point is about an hour drive from central Rome, so be ready for an early wake up, as we'll need to take advantage of the favorable early-morning breeze. After a flight orientation and inflation of the balloon, you'll be ready to gently rise to amazing heights and enjoy bird's-eye views of ancient hilltop villages, medieval castles, and fertile valleys extending along the Tiber river.

Our English-speaking pilots can accommodate any request and sunset or evening tours may be available depending on the time of year. Tell us your preference and we will design the perfect itinerary to ensure you make the most of your time in the sky!

So bring your smile and your appetite for adventure as THIS is the best way to start a Roman day!
