

## Picnic in an Ancient Olive Grove

Location: Ostuni & Surrounds | Duration: 4 hours

YOUR PRIVATE ITALY

Puglia is estimated to have 60 million olive trees, some as old as 2,000 years, all of which are protected by law. With this enormous number of trees Puglia produces more olive oil than anywhere else in Europe. Extra virgin olive oil is the basis of the now UNESCO protected Mediterranean diet along with fish, grains, and vegetables, and the cuisine in Puglia provides a perfect example of this healthy way of eating and living. There is no place better to experience the olives and olive oils than in one of Puglia's ancient estates. We'll visit one of these lovely estates and enjoy a visit and tasting, followed by a delightful picnic in the olive grove.

Recommended departure times: 10-11am or 4-5pm (depending on the time of year).

What's included:

Visit to a historic olive-oil estate

Olive oil tasting

Picnic in the olive grove

Private transportation

\*Please note the picnic location is subject to weather conditions
